CAMWS membership (efforts at promotion and results)

In January 2019, the at-large vice president emailed all current members in the region, thanking them for their membership and reminding them of its benefits (including CPL funding, *CJ*, access to the online Loeb Classical Library, and CAMWS awards). The at-large vice president also sent emails to those with lapsed membership from the years 15-16, 16-17, and 17-18. In total, 563 emails were sent this year. The vice president sometimes receives replies to these emails, thanking her for the reminder. This year, she received a few replies. A few noted that they had forgotten to renew and were doing so now (confirming the importance of reaching out in this manner). As in past years, a few others replied with an affirmation of how much they appreciate CAMWS. The membership committee helped with the at-large emails by contacting lifetime members.
