

The Current Status of the Seal of Biliteracy

This paper will survey the states that have adopted Seals and look at the range of requirements they have chosen. In addition, it will review current advocacy measures within the Classics profession to insure that students of Latin and Greek will be eligible to earn their state's Seal using measures that are appropriate for their schools. In addition, it will introduce a database containing information about the status of the Seal in each state as well as the ways in which Latin and Greek are included.
